

Royal Sovereign NPH-1200N A3 Heavy Duty Laminator

Technical Specifications

Model No.	NPH-1200N
Feed Width	ID- A3
Heated Rollers	4
Weight	15 kgs

The Royal Sovereign NPH series Heavy Duty Laminators give you quality laminates, robust construction and usability. They also give you control over the speed of your laminating throughput. Bigger rollers and larger motors mean these laminators have the power to keep on going all day long. These machines have a removable cover for access to the rollers in the event of a pouch jam and to clean rollers, helping to reduce the likelihood of jams.

- Ideally suited for high volume lamination in busy offices, schools, colleges, universities, print shops
- HOT ROLLER TECHNOLOGY
- High quality construction, 4 rollers
- Temperature & speed controls
- Simple, intuitive, easy to use controls
